

# Agricultural Equipment

The San Diego County Air Pollution Control District (APCD) administers several state-funded grant programs to cover significant portions of the cost of replacing or repowering eligible equipment, which is then scrapped.

Grant applications are accepted for a limited time each year.

- When the grant program is opened, you can apply through the APCD [Citizen Access online application system](#).
- As the grant application window is limited, potential **OFF-ROAD AGRICULTURAL EQUIPMENT** applicants may wish to gather legible electronic copies of the needed documents in advance:

General Requirement	Acceptable documents may include:
Documents showing usage of the existing engine for the past 24 months	<ul style="list-style-type: none"> <li>• Hour meter records</li> <li>• Repair work orders</li> <li>• Fuel records</li> </ul>
Anticipated costs of replacement engine or equipment performing the same function as the existing unit	Written estimate (quote) from an equipment dealer documenting the cost of each piece of replacement equipment and—if applicable—retrofit device(s).
Certification level of proposed engine	CARB Engine Executive Order or EPA Engine Certificate of Conformity for replacement engine (from the equipment dealer)
Applicant certification of compliance with federal, state, and local air quality regulations	Grant Program Regulatory <a href="#">Compliance Statement</a> , signed after the grant period officially opens.
Tax Forms	<ul style="list-style-type: none"> <li>• A completed <a href="#">federal 2019 Form W-9</a> Taxpayer Identification Number and Certification, AND</li> <li>• A completed <a href="#">California 2019 Form 590</a> Withholding Exemption Certificate</li> </ul>
For UTV replacement projects only	Copy of warranties for proposed new vehicle and battery, showing coverage of vehicle drivetrain (including any energy storage or battery packs), and a description of manufacturer plans to provide warranty and routine vehicle service (from the equipment dealer).
Proof you have owned the existing equipment for the past 24 months and that there is no lienholder on the title.	Bill of sale for the existing equipment, Maintenance/service records, or other documentation approved by the APCD

Partially funded through California Climate Investments, a statewide program that puts billions of Cap-and-Trade dollars to work reducing greenhouse gas emissions, strengthening the economy, and improving public health and the environment—particularly in disadvantaged communities.

General Requirement	Acceptable documents may include:
If active military service during the previous 24-month period prevents documentation of title, registration, usage or California operation requirements	DD Form 214, Certificate of Release or Discharge from Active Duty

Finally, if you are planning to apply for a grant, please keep the following recommendations in mind:

- **DO NOT PURCHASE NEW EQUIPMENT YET!** New equipment funded by this program can only be purchased once the contract is signed between the equipment owner and the APCD. An equipment owner who pre-orders new equipment prior to contract execution does so at the equipment owner’s own risk.
- **KEEP EXISTING EQUIPMENT IN OPERATION!** Existing equipment must be in operational condition and operating at a similar activity level to that listed in the application until the equipment has been relinquished to an APCD-approved dismantler.
- **STAY COMPLIANT!** Equipment must remain compliant at all times with all applicable federal, state, or local regulations, and all applicable regulatory advisories, without the assistance of any grant funding requested in the application.
