San Marcos High School FFA
Livestock Sale

This year because of CoVid 19 and the cancellation of the San Diego County Fair we are no longer able sell our livestock through the auction. Click on the links to read about our students and their experiences in FFA. If you are interested in making an offer on their livestock please reach out to krystal.thomas@smusd.org. We are also accepting “add ons” in any dollar amount to help our students with the cost. All donations and purchases are tax deductible!

Livestock Sale

Additional Information:

Meat will be processed and available in July.

Students have invested between $500-$650 in their projects. Profits from their projects are spent on FFA Conferences or reinvested into their next project. Students have invested over 100 hours into their projects.

All purchases or donations will come with a donation letter for tax purposes.

After animals are sold there is a processing and butcher fee that is paid for by the consumer to those 3rd party companies. Processing fees are approximately $100. Butchers charge approximately $100- $200 per animal and come with customization of meat cuts.

The amount of meat produced by each animal is approximately 60-70% of their live weight. Goat's live weight before processing is between 70-85lbs. Sheep live weight before processing is between 120-140lbs. Pig live weight before processing is between 220-250lbs. A great option is to reach out to friends and family and split the cost and meat if you are not interested in the whole amount!
