

SAN DIEGO CLEAN AIR FOR ALL GRANTS

\$30+ million in grant funding from San Diego County Air Pollution Control District for projects that improve air quality

2021 Grant Applications accepted November 8, 2021 through January 7, 2022

WHAT PROJECTS QUALIFY?

Scrap and replace/repower diesel (or diesel/gasoline UTV) off-road equipment over 25 hp:

- Construction, Industrial, and Cargo Handling
- Agricultural (includes replacing UTV/tractors under 25 hp with electric UTV)
- Marine engines (repower only)
 - Commercial harbor craft may also qualify for repower, retrofit, or replacement from Goods Movement Emission Reduction Program (GMERP) funds; see GMERP details at: <http://tinyurl.com/sdapcd-gmerp>
- Locomotives

Scrap and replace/repower diesel or natural gas on-road vehicles:

- Heavy-duty trucks over 14,000 pounds GVWR (replacement trucks received by December 31, 2022)
 - Trucks over 16,001 GVWR may also qualify for Goods Movement Emission Reduction Program (GMERP) funds; see GMERP details at: <http://tinyurl.com/sdapcd-gmerp>
- School and transit buses
- Public agency, utility, solid waste collection, and emergency vehicles

Install new infrastructure:

- Battery Charging stations supporting the above equipment types
- Natural Gas and Hydrogen fueling stations supporting the above equipment types

Disadvantaged Community Projects:

- Disadvantaged communities marked pink or pink/blue stripe in this map: <https://bit.ly/ej-map>
- Zero-Emission Lawn and Garden Equipment, low/no formaldehyde composite wood furniture, and enhanced air filters in K-12 schools located in disadvantaged communities
- Various stationary source projects located in disadvantaged communities

WHAT ARE THE FUNDING LEVELS?

Funding depends on several factors, including cost-effectiveness (new equipment cost divided by pounds of emissions saved by using new equipment), equipment location, and whether new equipment is zero-emission.

Some examples of grant funding levels:

- Up to 80% to replace a tractor or other off-road equipment
- Up to 75% to replace a gas/diesel UTV or under 25 hp tractor with an electric UTV
- Up to \$400,000 to replace a school bus with a zero-emission school bus (more in disadvantaged communities)
- Up to 70% to replace zero-emission lawn and garden equipment at K-12 schools in disadvantaged communities
